YOUR STORE AND ITS LIGHTS

THE successful business is successful because it caters to the public in a manner that appeals to them. The man who displays his goods so that they can be minutely examined, shows that his goods can stand inspection. Everyone likes to buy in the store where they really can see what they're getting.

You have noticed that in stores where gas is used for lighting, it is as bright as day. Possibly you will be interested in the fact that there is practically no initial expense in the installation of an efficient lighting system in YOUR STORE. Let us tell you our story of Light.
